

## **Overwintering Strategies – A Nature Detectives Game How Animals Survive the Winter**

Coast Kids “Nature Detectives” are non-competitive escape-room-style games. Students learn in a playful way about wintering strategies of local animals such as hibernation, migration, and various winter adaptations. The game may be played indoors or outdoors (weather permitting).

Grade level: 2<sup>nd</sup> to 6<sup>th</sup> grade

Number of students: 30 students max per group. A minimum of three groups per day is required due to the extensive set up.

Duration: 60 to 90 minutes (may be adjusted to your class period time)

Cost: \$3 per student

Requirements to set up the game: A very large room or part of a school’s outdoor area (weather permitting)
