

Water Quality Testing and Crabbing at Public Landing Pier

Date: **Sunday, August 24, 2025**

Time: **2 PM to 3:30 PM**

Meeting point: **Public Landing Fishing Pier**

Address: **End of Public Landing Rd, Snow Hill, MD**

Come and learn real-life scientific methods to test the bay's water quality. Then spend some time at the beautiful Public Landing pier on Chincoteague Bay to catch crabs and go swimming. We hope to see lots of crabs, and maybe some other sea creatures as well. We will provide bait, crab lines, and nets as well as life vests for those who need them. The pier has a small slide into the water and makes a great place to cool off and have fun in the bay. Please bring a bathing suit, towel, and water shoes (the bay is shallow enough for bigger kids to stand up), sunscreen and bug spray. Public Landing has also a shady pavilion with tables at the pier for a picnic.

Number of spaces available: **No Limit! Please sign up for the event at www.actforbays.org/coastkids. If you signed up and you can't make it, please email taylor@actforbays.org. The event is free for members and non-members.**

Directions: *From Berlin/OC:* Take Rt. 113 S towards Snow Hill. Turn left onto Public Landing Road (Rt. 365) to Public Landing. The road ends at the boat landing and public pier.

From Salisbury: Take Rt. 12 to Snow Hill. At the red light in town turn left onto E Market Street, then take the second right onto Bay Street (Rt. 365), which becomes Public Landing Rd. Go across Rt. 113 and follow the road to the boat ramp and public pier.

If you have any questions, please email to taylor@actforbays.org, or call the ACT office at (443) 235-2014.
